We need your say

We have two upcoming annual meetings that we'd love you to come and contribute to. Presmed Australia values the input of patients, their families, carers and other stakeholders, to help us continue to improve the quality of our services. Consumer engagement is also an important part of accreditation requirements under the new National Standards for quality. Your participation will help ensure that we can better plan, design and deliver the best possible outcomes for all. Please contact the relevant Clinical Manager/Director of Nursing below to RSVP.

April 8 at Epping Surgery Centre: contact Wendy McLean on (02) 9868 6555. [Read more](#)

May 23 at Ophthalmic Surgery Centre: contact Michelle Remington (02) 9413 4822. [Read more](#)

New Glaucoma treatments offered by our surgeons

iStent®

Hydrus™

Ophthalmic Surgical Centre surgeons [Dr Ridia Lim](#) and [Dr Ilesh Patel](#) are among the first in Australia to use the Hydrus™ and iStent® technologies to treat Glaucoma. Only a handful of Glaucoma specialists have been invited to use these innovative surgical stents which offer alternatives to ongoing medication.

The Hydrus™ Microstent and iStent® and are both TGA-approved for the reduction of intraocular pressure in patients with open-angle Glaucoma. Both stents, inserted during cataract surgery, safely lower eye pressure by creating permanent openings to improve the eye's natural fluid outflow. Clinical trials for both stents have been shown to reduce intraocular pressure. Read more about the [Hydrus™ Microstent](#) and [iStent®](#)

Photo above - Both implants are incredibly small – the iStent® is 1mm long and the Hydrus™ is roughly the size on an eyelash

Featured Ophthalmologist: Dr Craig Donaldson

Dr Craig Donaldson's specialist qualifications in ophthalmology were obtained at the Sydney Eye Hospital and a number of associated hospitals in Sydney and NSW country. Dr Donaldson undertook further sub-specialist training in strabismus and paediatric ophthalmology at the

prestigious Hospital for Sick Children in Toronto, Canada. He is a Staff Specialist at Westmead Children's Hospital and a visiting medical officer at Sydney Children's Hospital as well as Sydney Eye Hospital, where he is head of the strabismus unit which services adults and children. Dr Donaldson operates privately at Epping Surgery Centre. [Read more](#)

Optometrists - Gain CPD points at your desk

Gain OAA-approved CPD points from the convenience of your own computer with our latest, completely free educational module 'Ultraviolet radiation and the eye'. This brings the number of modules available to 25, all free and easily accessible online. [Check it out.](#)

Ground works underway at new Chatswood Eye Hospital

Exciting news! Preliminary ground and service works are underway on the site of our new purpose-built private eye hospital in Chatswood, at the corner of Albert and Archer Streets. The scene

is set for our formal ground breaking ceremony
planned for April 2014.
